Home Zones Council Meeting!

If things seem to have gone a bit quiet of late, it's only because noisy meetings in the street have been replaced by frantic activity centred around the council offices and the hot wires of emails going to and fro. To bring you up to date and to incorporate your ideas in the design of the scheme, there is a Council meeting on Saturday December 11, 10am -12noon at 39 Broughton Road (Conservative Club).

Meeting Agenda

Plans: see several different options covering layouts for our roads and pavements and give your initial feedback.

Through traffic –the facts

Car monitoring:

You may have noticed people taking notes of cars last week. This is part of the council survey to establish a rational basis for changing street layouts. Initial feedback at the meeting

See the movie

A group of people visited Home Zones in Europe and made a film. It gives a very good idea of how others made the idea a reality. How they coped with traffic, designing the roads and pavements. Are they safe for children? This is a very good introduction for anyone who has questions fears or doubts.

Any one who wants to borrow this HomeZone film is welcome contact [Charmian](#).

WATCH OUT

Once or twice recently residents of local streets have been disturbed late at night by a man calling himself 'Daniel' asking for assistance claiming he lives 'a few doors down'. This man has knocked on several doors asking for money for a mini cab.

This follows a similar incident earlier in the summer when a man knocked on doors asking for money claiming his car had broken down.

Be on your guard!

What is the Five Road

We are the residents of neighbourhood of West comprising Hastings Road, Hartington Road, Broughton Road, Denmark Road, and Road.

We have become motivated in our campaign for a traffic calming parking management scheme to address the problems we experience.

What is a Home Zone

A home zone is a group of streets where pedestrians and cyclists have priority and cars are limited to a top speed of 10 mph. Drivers have to give way to pedestrians and cyclists.
